World Thinking Day 2013 MDG 5 Activity Pack

WHAT IS THE GLOBAL COMMUNITY TRYING TO ACHIEVE?

Target 5.A – Reduce by three quarters the maternal mortality ratio

Target 5.B – Achieve universal access to reproductive health

HOW WILL THE GLOBAL COMMUNITY KNOW IF WE ARE MAKING PROGRESS TOWARDS THE TARGET?

INDICATORS FOR MONITORING PROGRESS TOWARDS MDG 5?

5.1 Maternal mortality ratio (How many mothers die each year during pregnancy, delivery, or in the six weeks following a pregnancy for every 100,000 babies born alive?)

5.2 Proportion of births attended by skilled health personnel (What percentage of births are assisted by a doctor, nurse or midwife?)

5.3 Contraceptive prevalence rate (What percentage of women who are married or in a union use modern contraceptives?)
